EXPERIENCE

Frontend Engineer

Abode

Lagos, Nigeria
Mar. 2026 – Present

- Built and maintained multiple Next.js + TypeScript products: consumer/realtor app, internal admin, Academy webinar platform, UK roadshow landing, and marketing sites
- Shipped Abode Academy end-to-end: multi-step registration, Supabase-backed admin dashboards, QR check-in, Google Meet access gating, and lifecycle email automation
- Developed admin modules for assets, users, transactions, agencies, commissions, and campaigns using GraphQL Codegen, React Query, and Zustand
- Contributed to migrating the consumer frontend from GraphQL to typed REST (Axios + Zod + React Query), including role-aware buyer vs. realtor routing
- Implemented ops tooling: CSV/Excel exports, registrant reporting, certificate generation (Puppeteer), and WhatsApp/email reminder workflows
- Instrumented applications with Sentry and PostHog for error tracking and product analytics

Frontend Engineer

City Spaces and Bookings

Lagos, Nigeria
Jan. 2023 – Present

- Built customer marketplace features in Next.js 14 + TypeScript: SSR home/search/hotel/location pages and end-to-end booking checkout (create, modify, cancel, early checkout)
- Implemented search and listings UX with Google Maps/Places split views and list virtualization for large result sets
- Integrated Paystack payments and payment-authorization flows for guest checkout and saved charge methods
- Delivered multi-step host onboarding and listing management, plus hotel operator surfaces for rooms, earnings, and staff
- Integrated hybrid REST (Axios) and GraphQL (Apollo) clients for apartments, bookings, and campaign placements
- Developed the CSB admin console (Next.js App Router): bookings/transactions, campaigns, geo CMS, and permission-gated navigation
